

MEGACITY SUSTAINABILITY INDICATORS

Formal and informal urban development in the emerging-market city of Sao Paulo

The Earth Institute's Center for Sustainable Urban Development and SIPA's Institute for Latin American Studies present Professor Carlos Leite, who will speak about the challenges of Sustainable Megacities, focusing on Sao Paulo, a city that is both an impressive emerging market and home to slums.

SPEAKER

Professor Leite is an Architect and Urbanist, with a Masters and PhD in Urban Design from the University of Sao Paulo and a Postdoc from California Polytechnic State University, where he was a Visiting Professor. He is a Professor at the School of Architecture and Planning, Mackenzie Presbyterian University, Sao Paulo and has been a visiting professor and lecturer in many schools in California, Boston, Canada, Barcelona and the Netherlands. He works as a Sustainable Development and Design consultant, including in informal communities and slums in Brazil. He is releasing his first book: *Cidades Sustentaveis, Cidades Inteligentes* in Brazil (Bookman). He is also a principal at Stuchi & Leite Projetos: www.stuchileite.com
